

## Join a great and growing mission

MentorNet, the world's premiere e-mentoring program, is helping to create a diversified global workforce. We match students at colleges and universities — especially women and underrepresented minorities — to mentors who help them achieve their career goals in engineering and science.

Year after year, our protégés, mentors, partner campuses and sponsoring companies tell us that they benefit enormously from our program.

## benefits for campuses

- Increase **retention**, especially of women and minority students in your science and engineering programs
- Create **job opportunities** for your students
- See live **data** on your protégés and their matches
